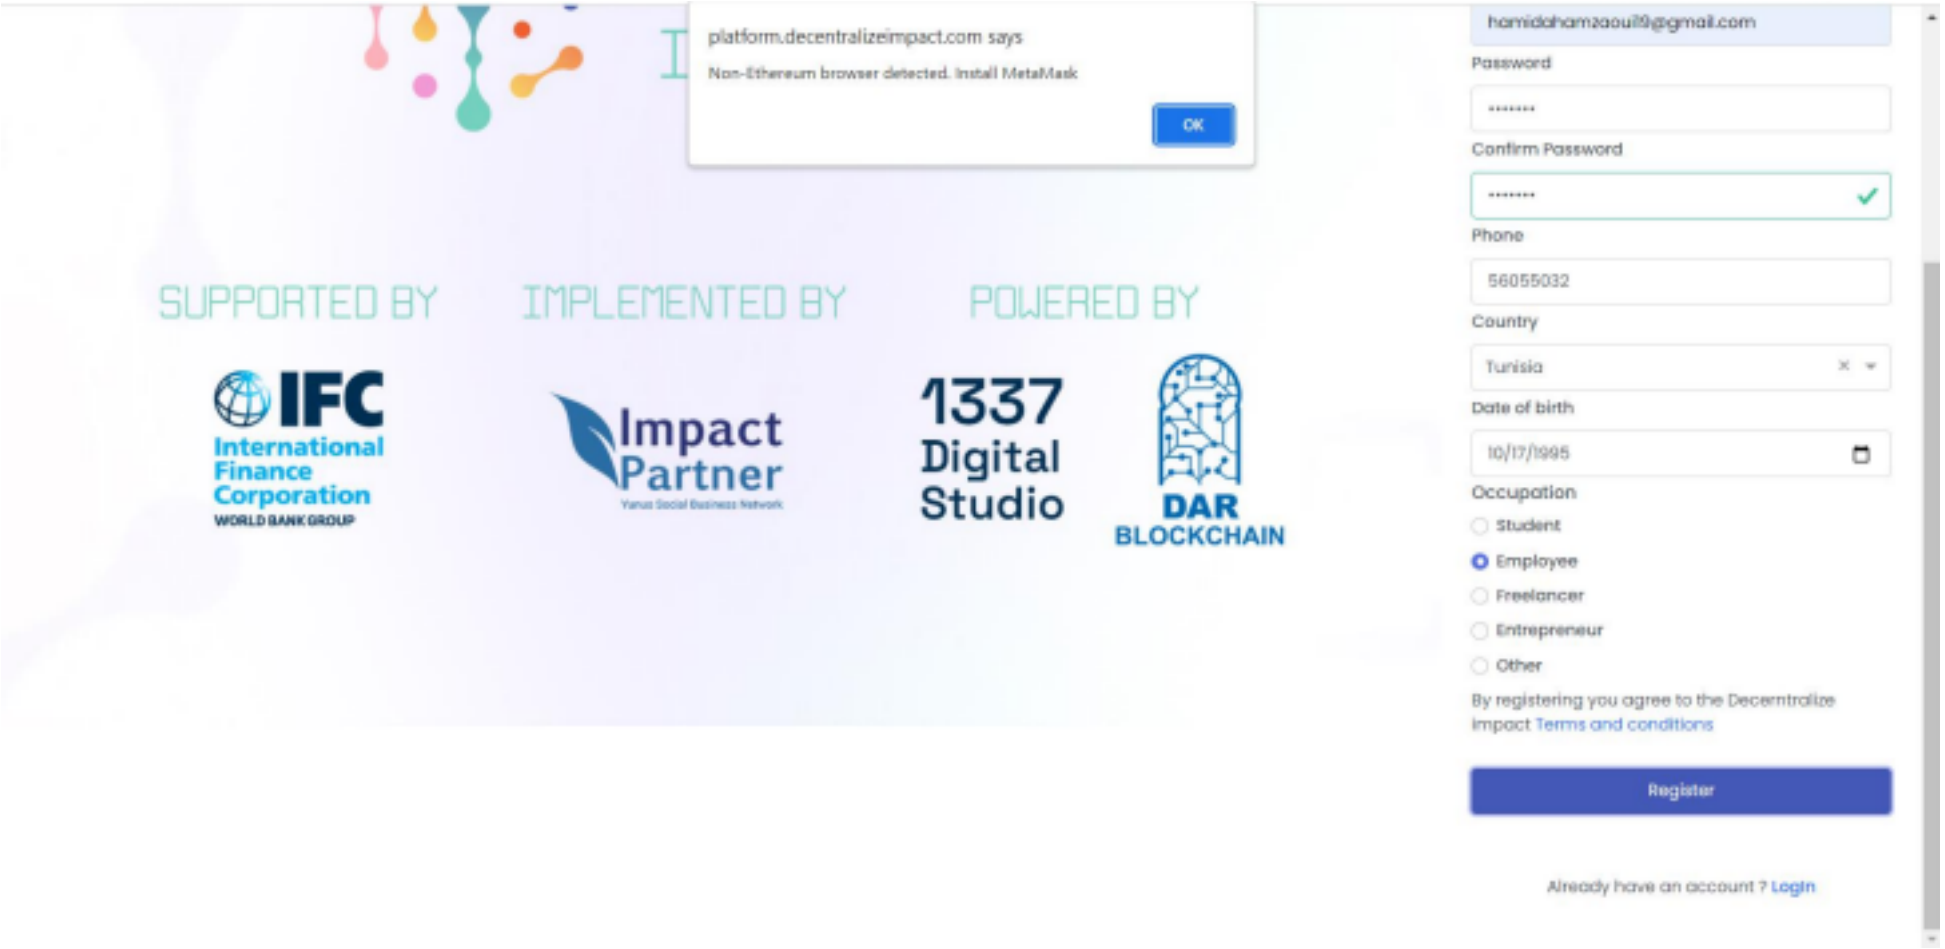
Creating Markets, Creating Opportunities

- To register, visit the following link :

[Link to the Decentralize Impact platform]

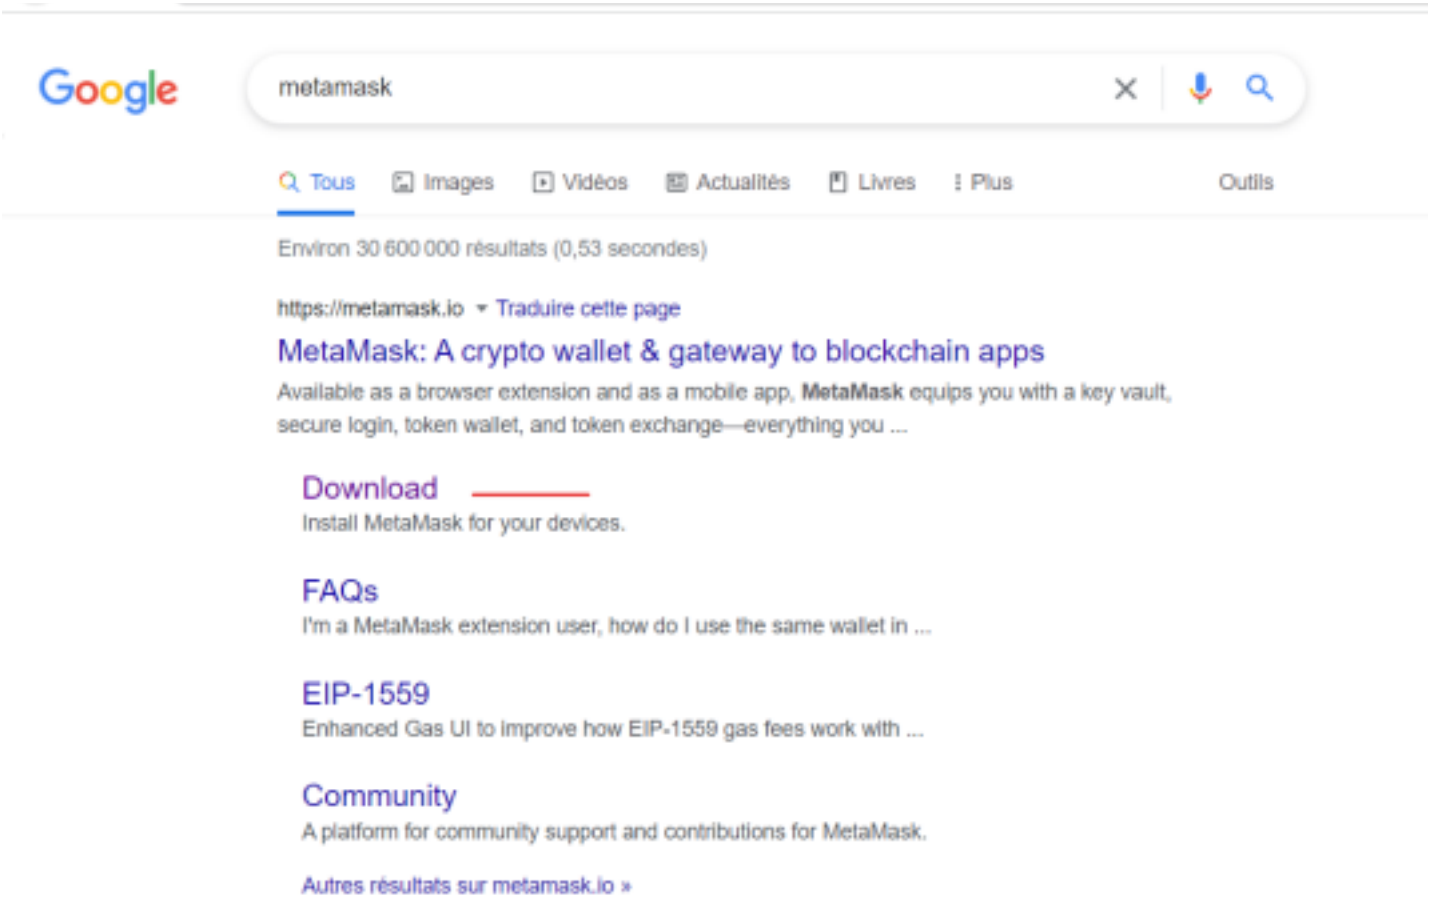
- When you click on register, a popup requesting that you install “Metamask will show”.



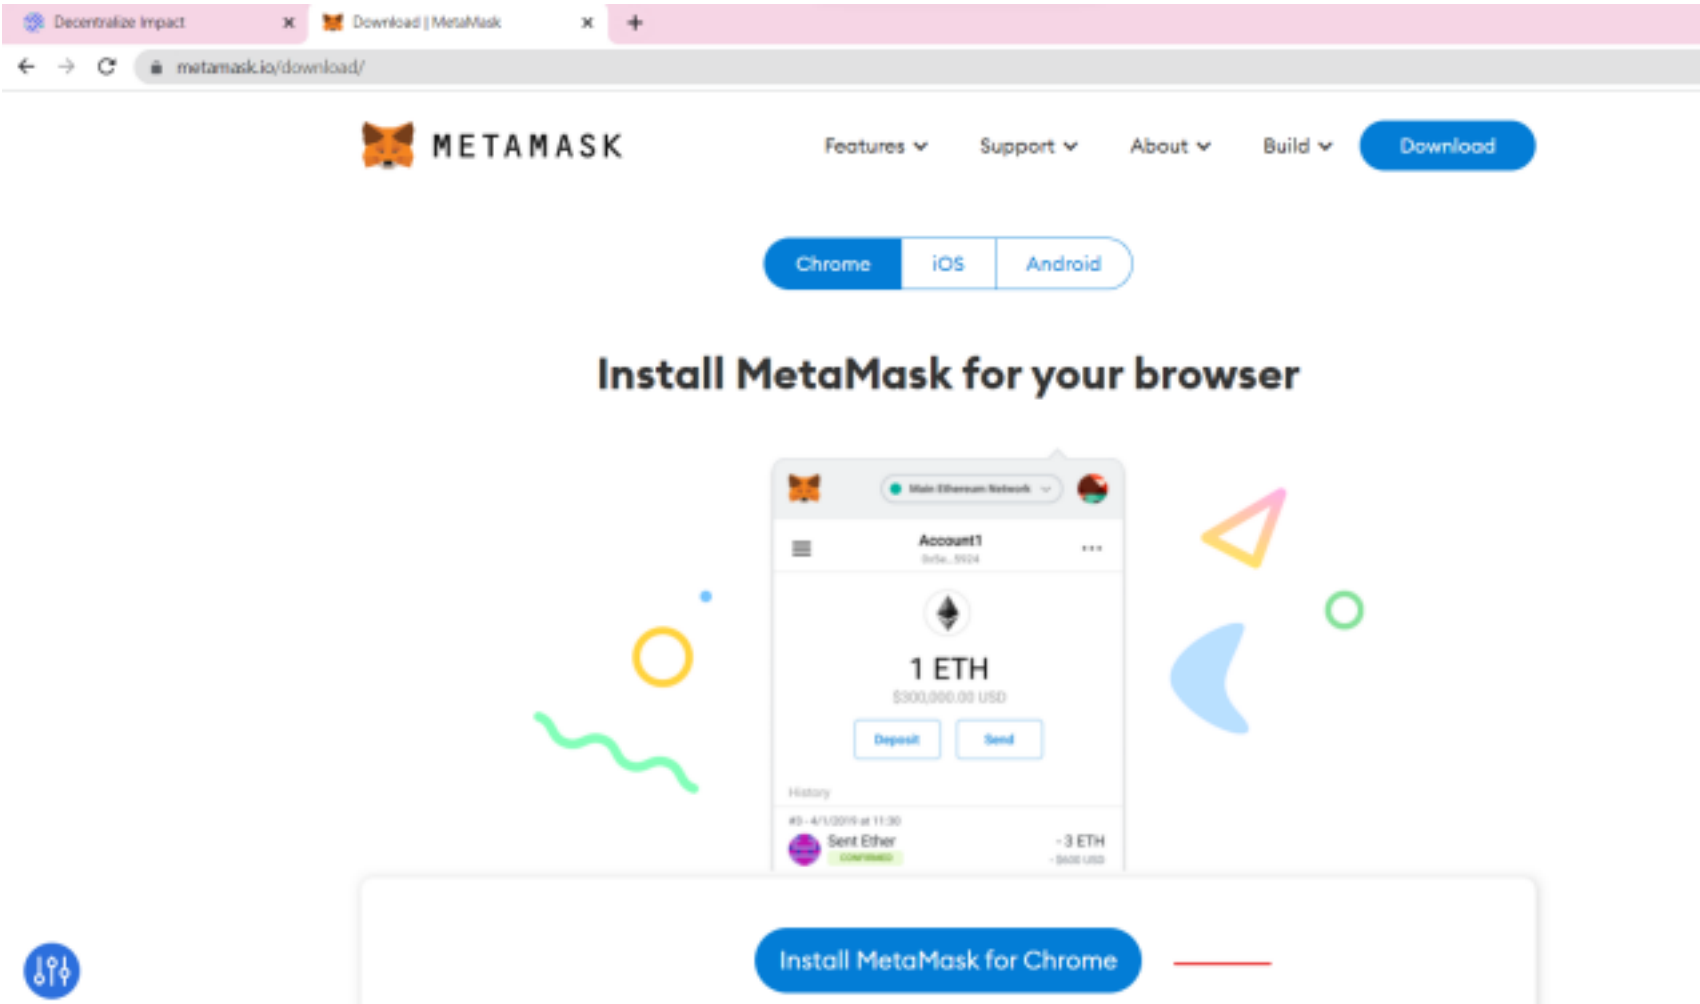
- To install Metamask please follow these steps :

1- Search for Metamask on google.

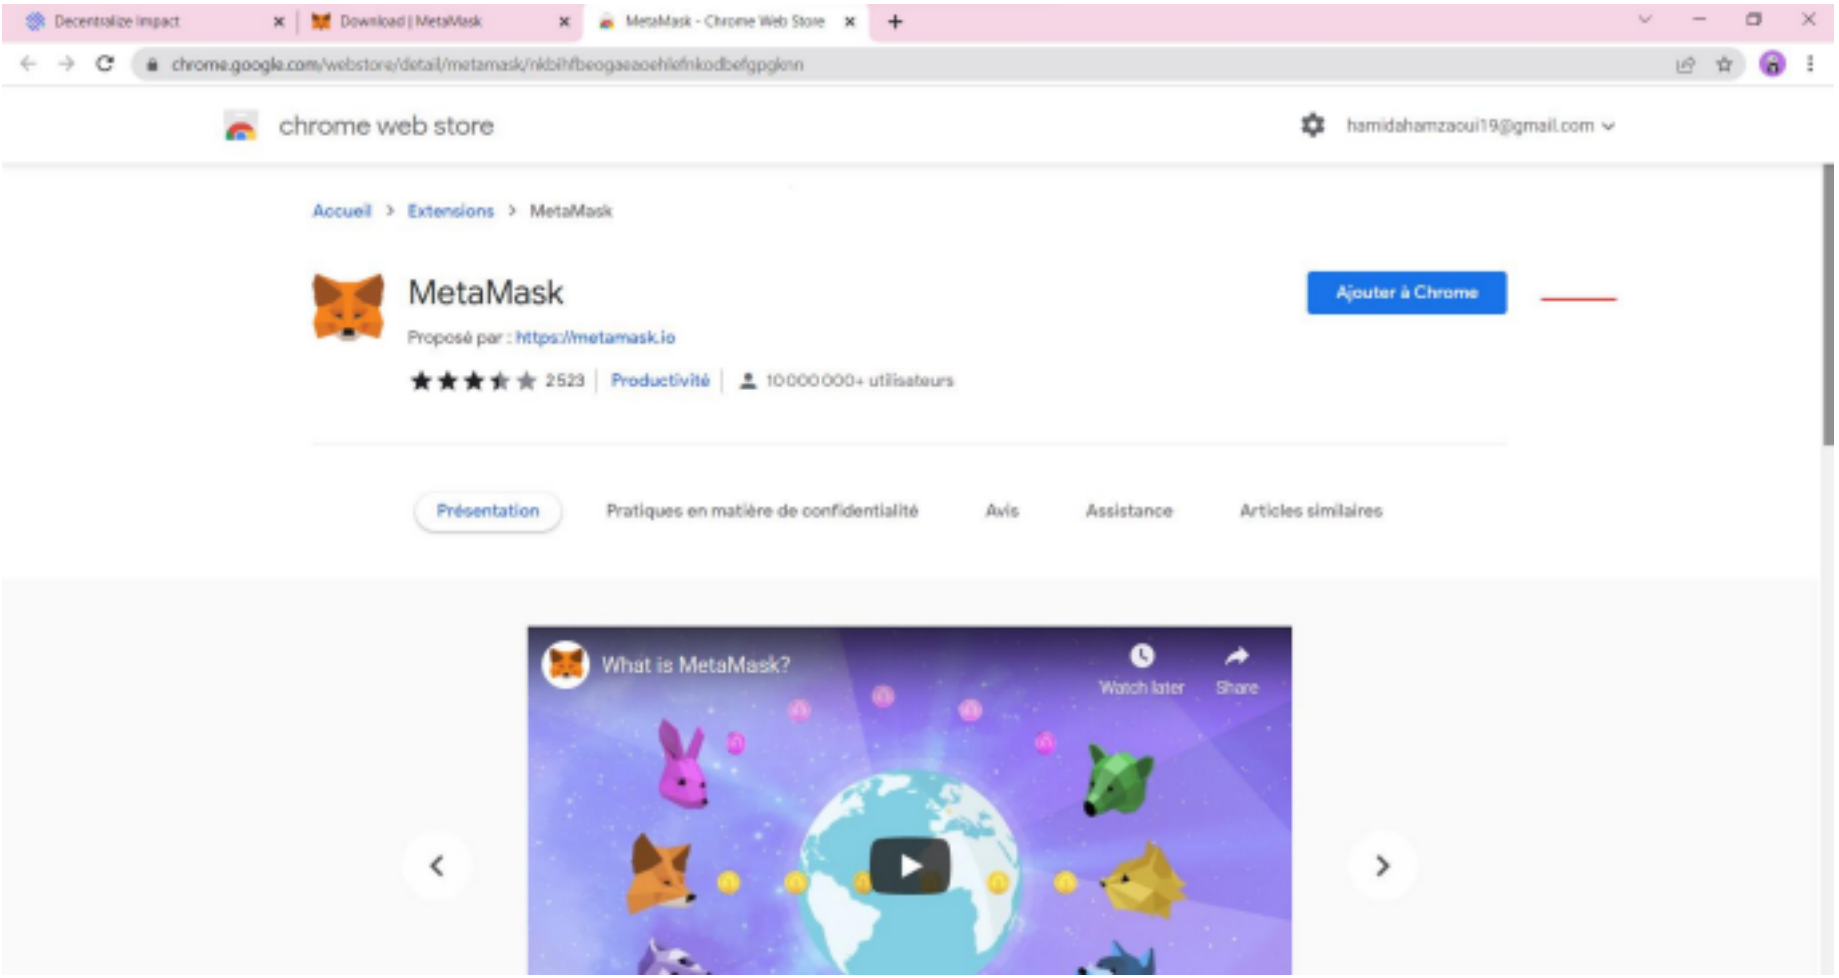
2- Click on Download.



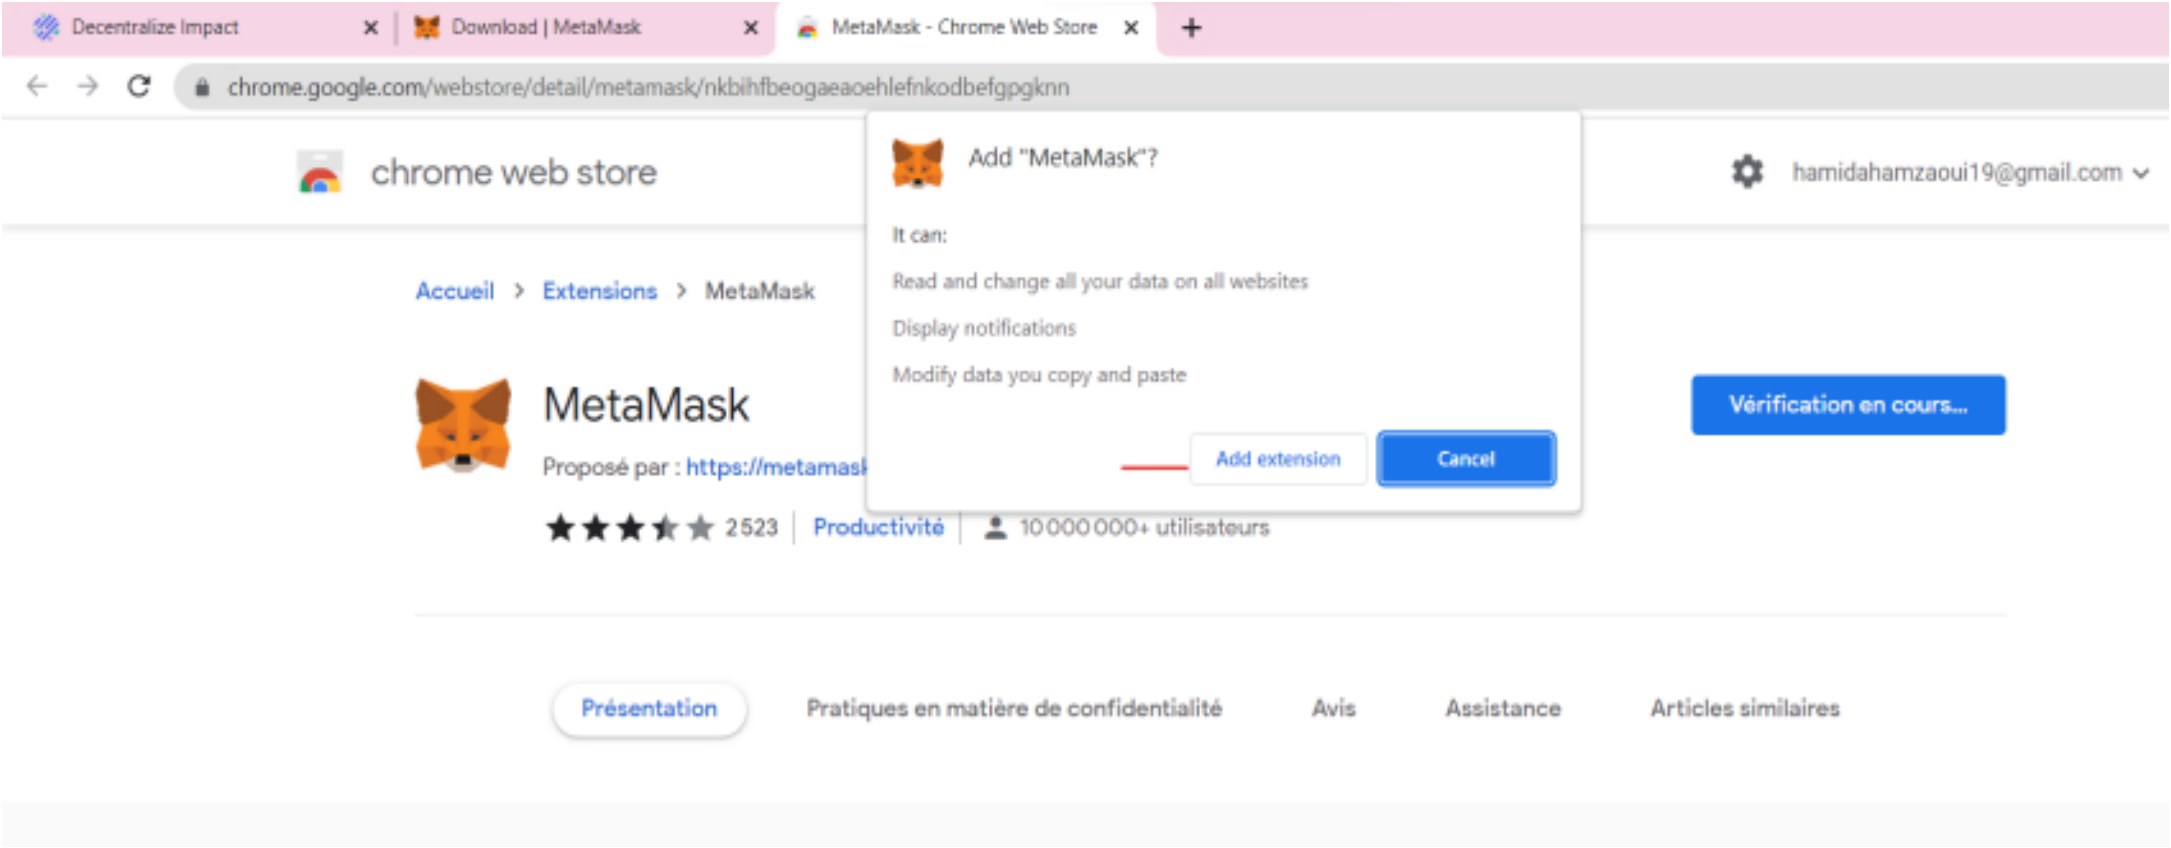
- You click on “Install MetaMask for your browser”.



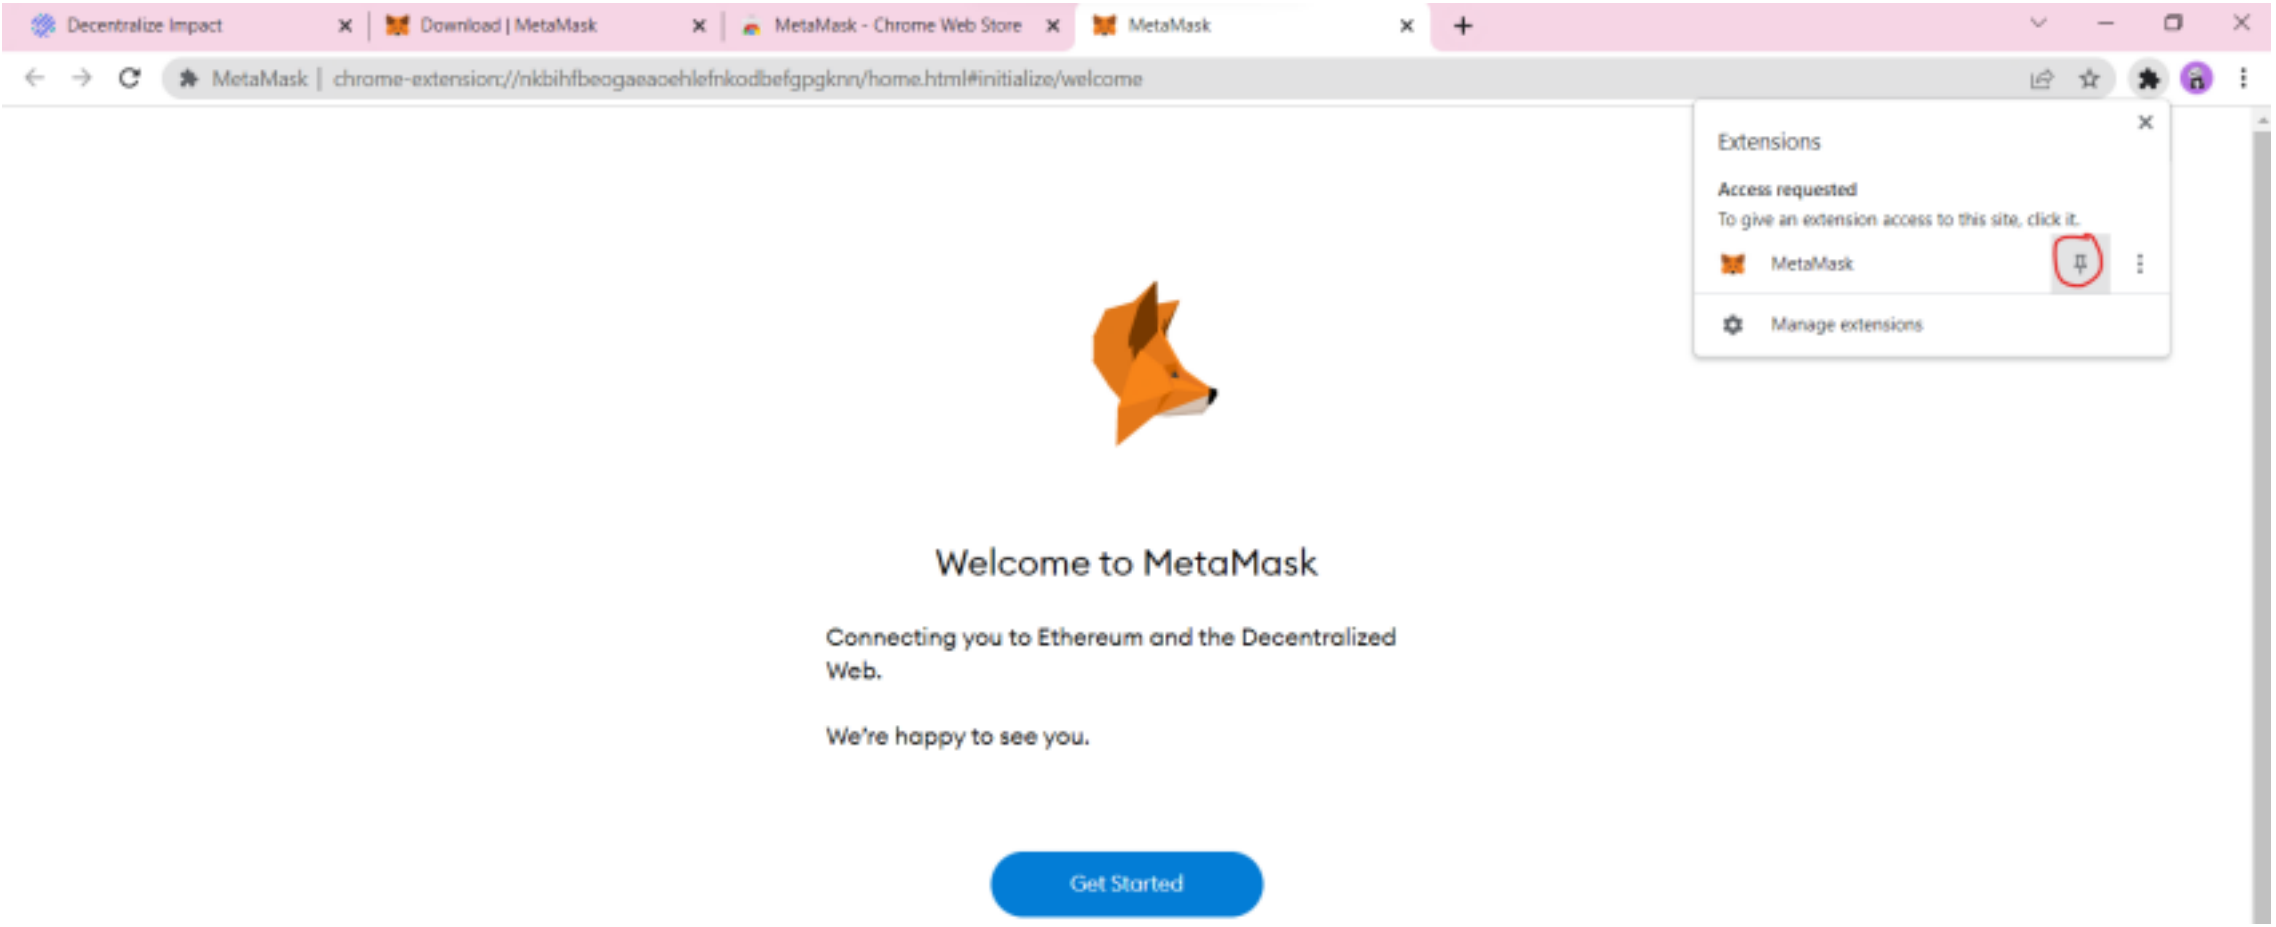
- You click on “Add to browser”.



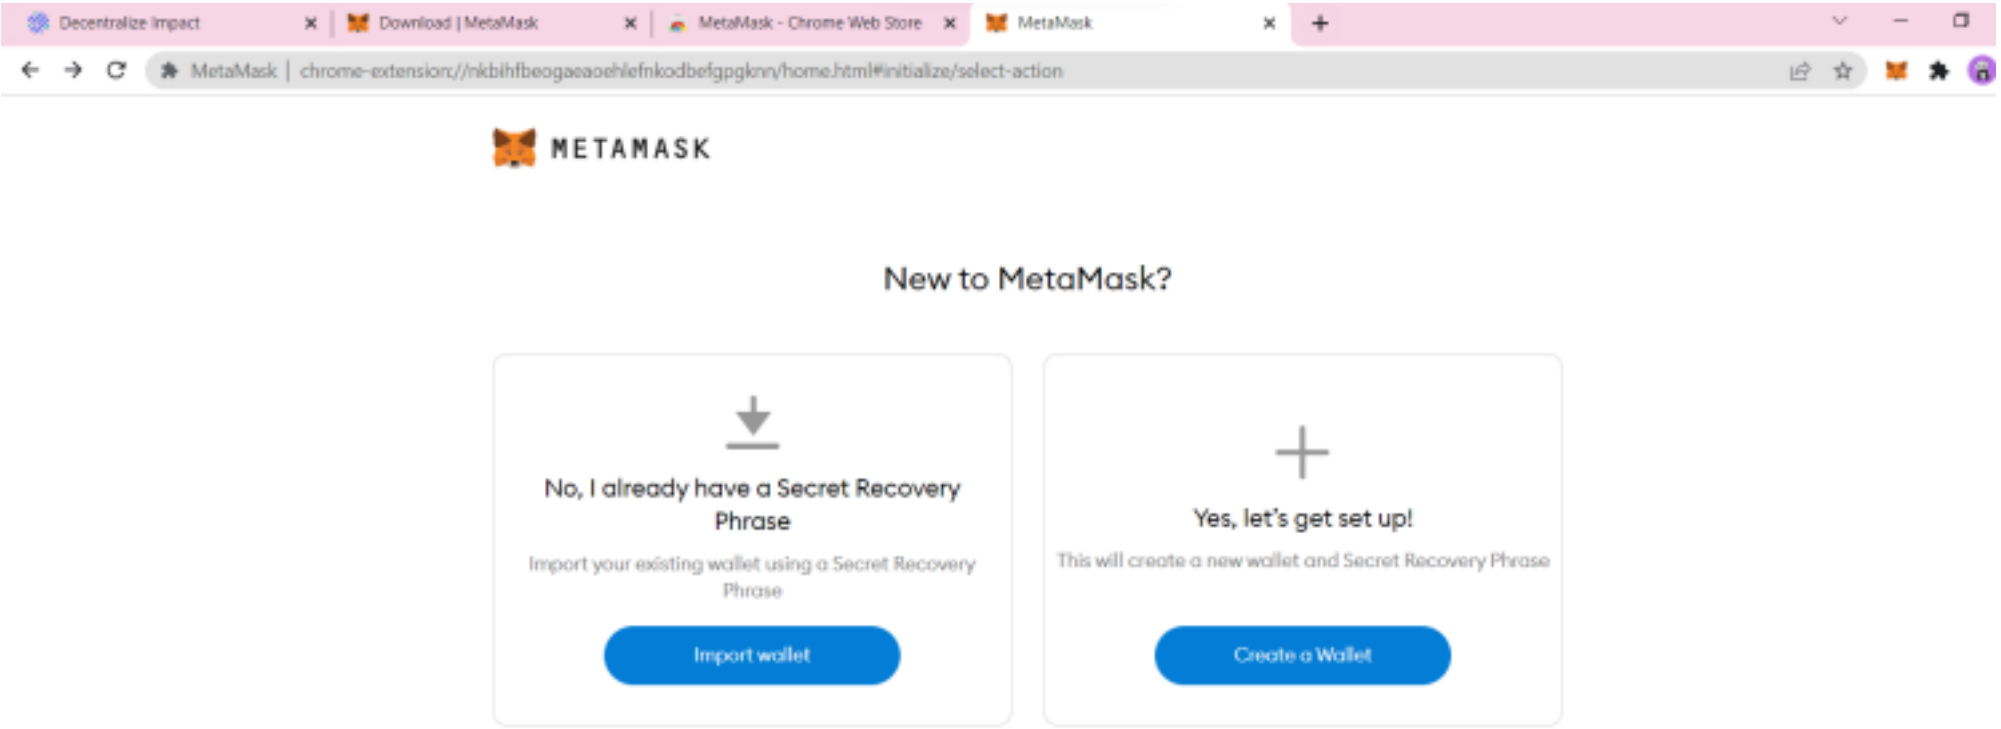
- You click on “Add extension” and wait for the download to be completed.



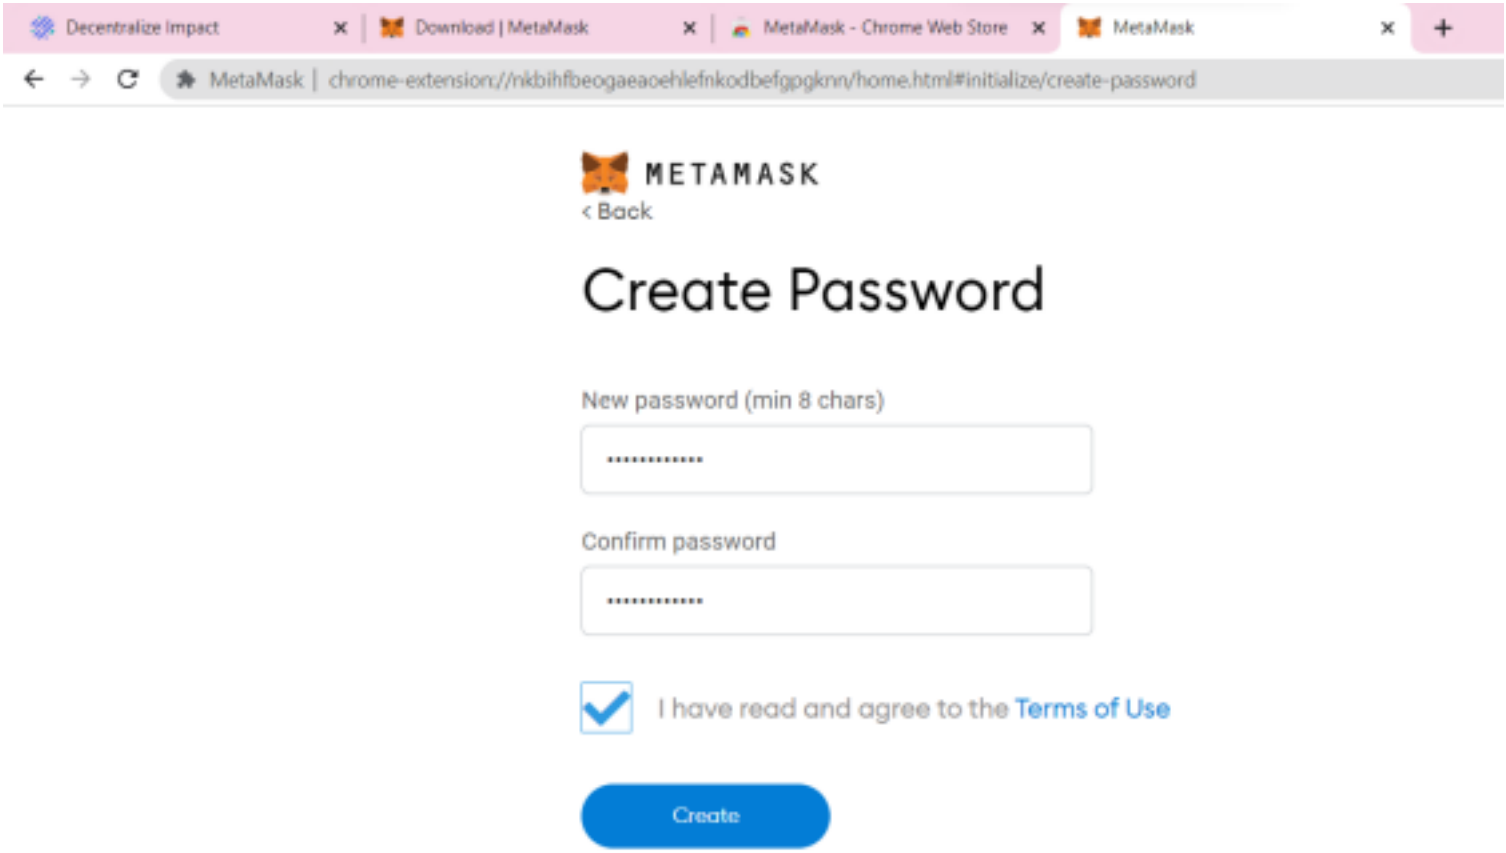
- You pin MetaMask.



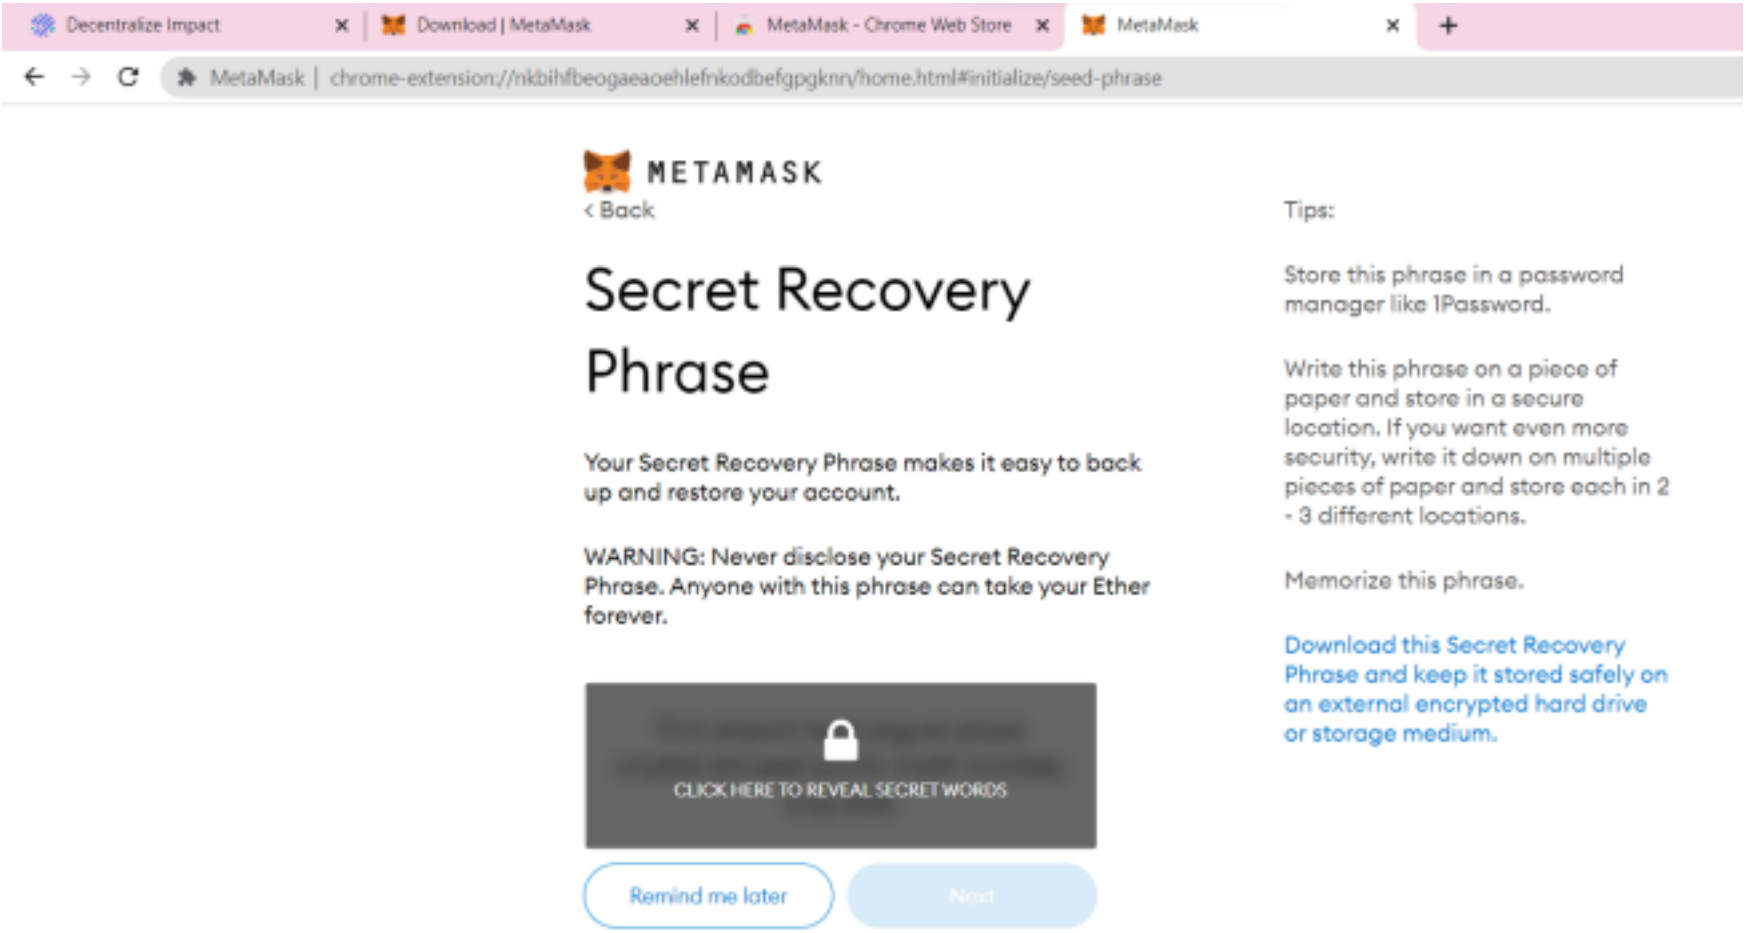
- After pining MetaMask and clicking on “Get Started” you will have the following page, you click on “Create a wallet”.



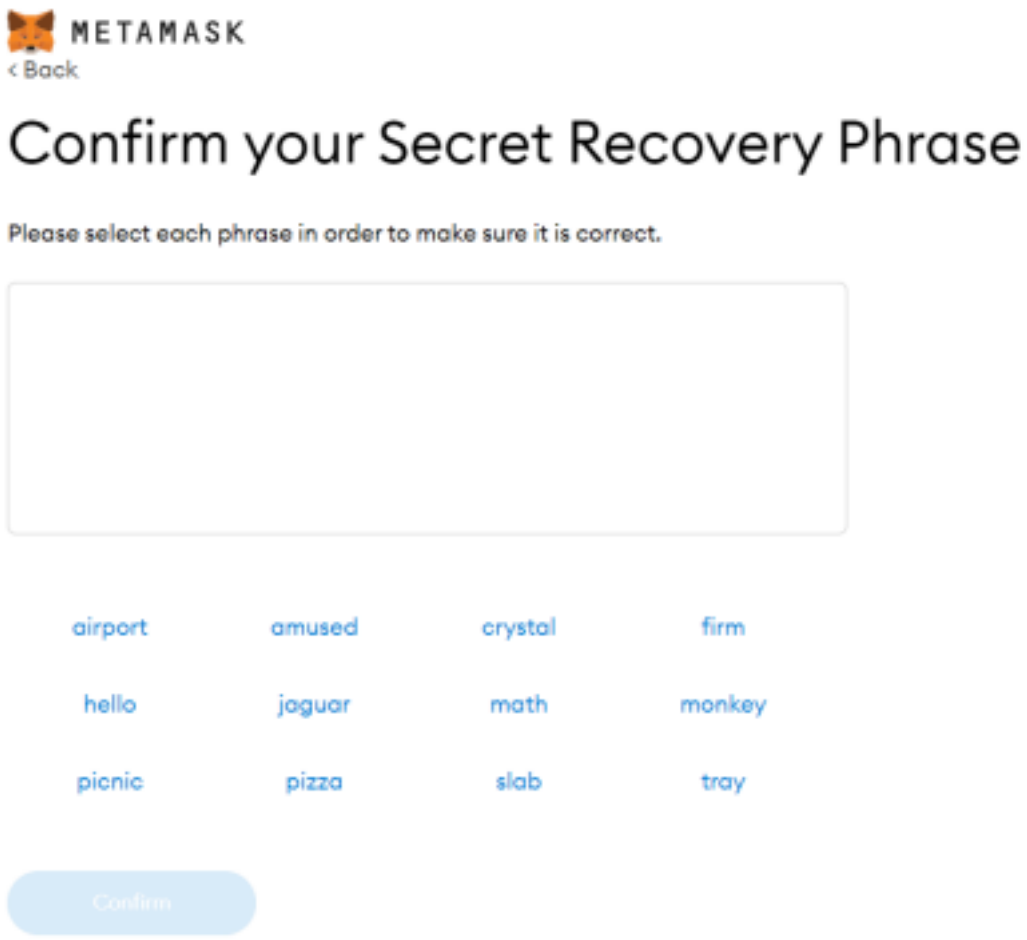
- You choose your Metamask password, you agree on the terms of use, and you click on “Create”.



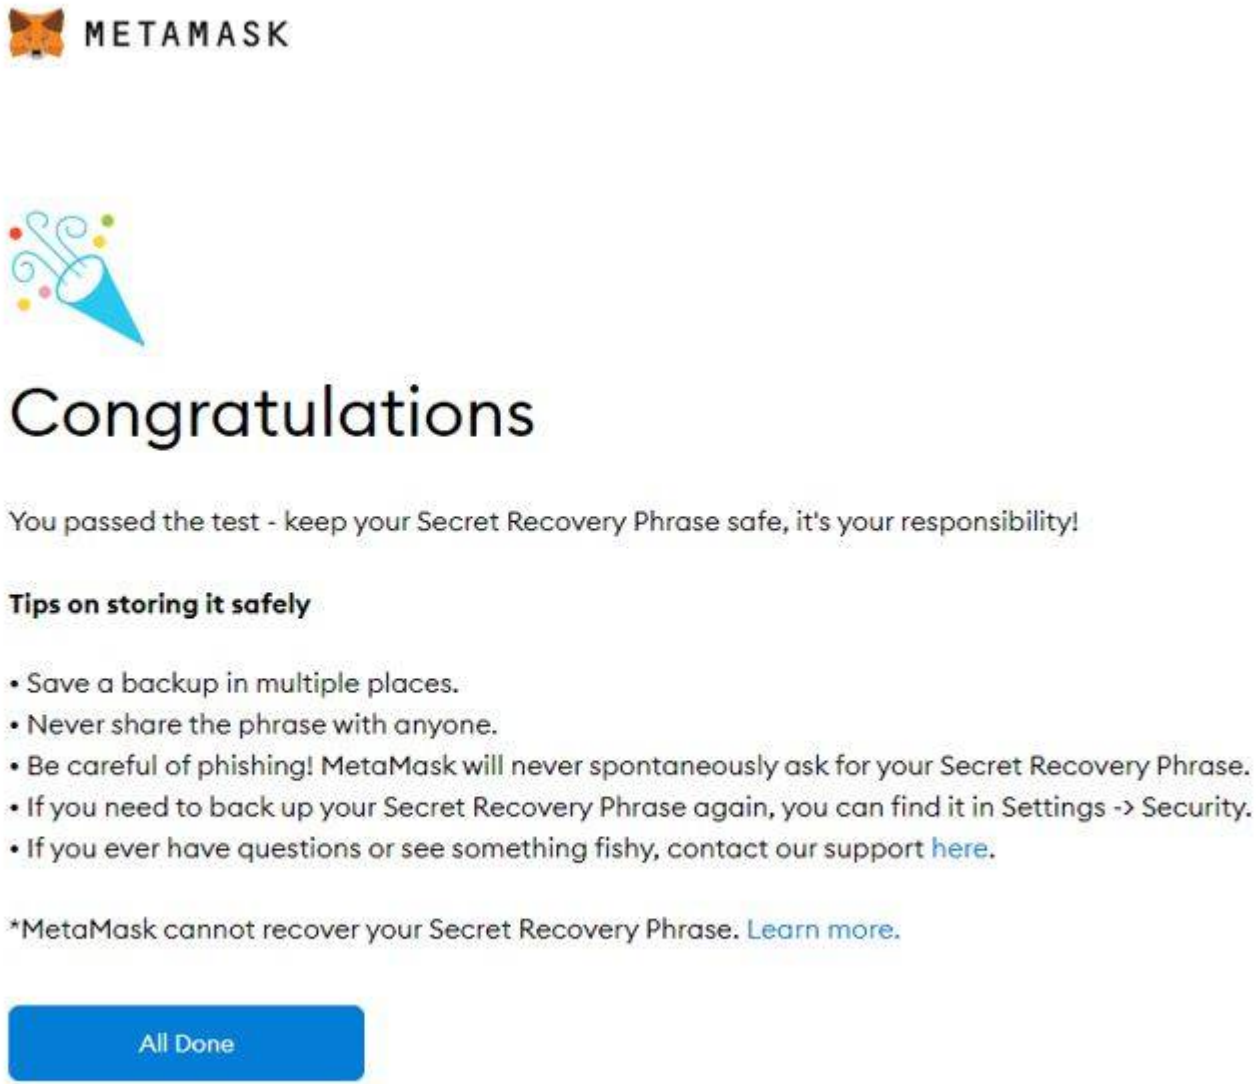
- You click to reveal your secret words, which you will have to save (back it somewhere).



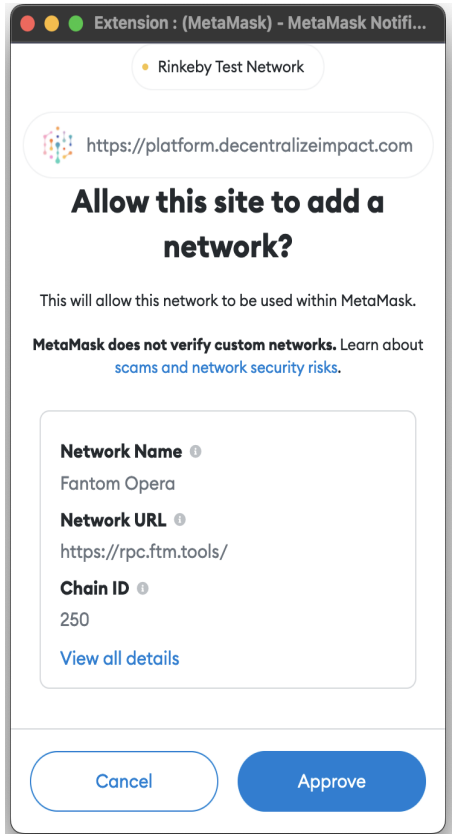
- After revealing and saving your secret words, you click on “Next”, Then you will have to reinsert it in the box.

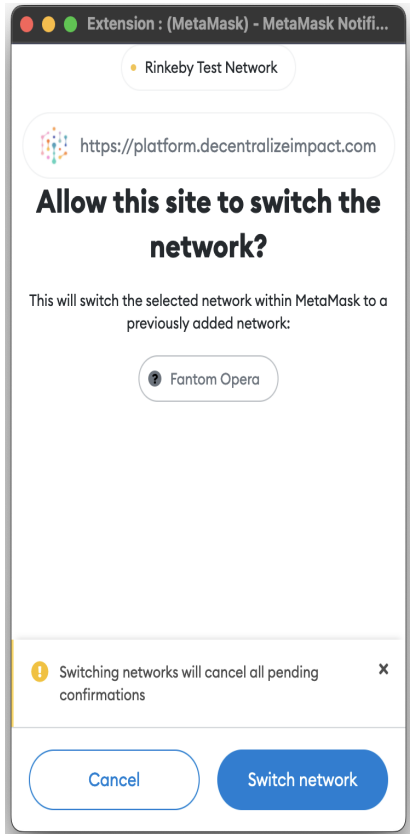


- After inserting your recovery phrase, you click on “Confirm” and you will be taken to another page, You click on “All Done” then your Metamask account is successfully created.



- Go back to the platform registration link and you will find a pop-up from MetaMask where you can add and approve **Fantom Opera** as a default network. (Decentralize Impact is using Fantom as a blockchain to run its platform operations)





- and you click on “Register”, a popup from MetaMask will show, you click on “Next” then “Connect”.
- You click on “Register” again and your information are saved.
- You check your email, and you click on the link to validate your account and then you can log in.
- You click on the “projects” page where you can navigate between them, then you may open each project, read about them and select which one to vote for.
- You click on “Vote”. (Each community member can vote up tp 6 projects of their choice).
